1. ENTERPRISE EUROPE NETWORK - IP AMBASSADORS

The European IP Helpdesk mainly addresses its services to European SMEs in English, but they are aware that when it comes to providing support to local SMEs, "the language and the national specificities" might be the barriers.

The [Enterprise Europe Network \(EEN\)](#), the world's largest support network for SMEs, and the European IP Helpdesk joined their forces to make you better benefit from their services. In the framework of this cooperation, EEN advisors particularly skilled in IP aspects can become European IP Helpdesk Ambassadors.

The IP Ambassadors put all the European IP Helpdesk resources at your disposal, thus supporting your IP inquiries in your own language and helping you to integrate IP in your business strategies.

- Do you wish to access our fact sheets in your own language?
- Are you hesitating to call our Helpline because of language concerns?
- You wish to receive or organise an IP training in your hometown?

Whatever your IP issue may be, don't hesitate to call the European IP Helpdesk Ambassador from your country/region – just at your doorstep!

Currently, they have 42 ambassadors from 27 European countries. Get in touch with the European IP Helpdesk Ambassador coordination team by sending an email at: ambassadors@iprhelphdesk.eu
